

Carrell Road / Winkler Avenue Utility Improvements

City of Fort Myers – (Lee County), Florida

The City of Fort Myers' Carrell Road / Winkler Avenue Utility and Drainage Improvement project involved the design of new sanitary sewer and water lines to replace deteriorated and undersized lines in an existing developed residential area. This project involved installation of approximately 108,000 lineal feet of sanitary sewer, 81,000 lineal feet of water lines, and 24,000 lineal feet of force main to upgrade utility service for approximately 1,700 customers.

Hole Montes is currently completing the CEI phase of the Carrell / Winkler Utility Rehabilitation project for the City of Fort Myers. Upon completion, the Carrell / Winkler Utility and Drainage Improvement project will have a construction cost of approximately \$32 million.

Hole Montes has provided both design and CEI services for this project
